EDUCATION

- Software Engineering and Information Technologies** Novi Sad, Serbia
Faculty of Technical Sciences 2019 — Present
fourth year student, average grade of **9.13/10**
- Natural sciences and mathematics** Zrenjanin, Serbia
Zrenjanin Grammar School 2015 — 2019

SKILLS SUMMARY

- Languages:** Python, Java, C#, JavaScript, HTML & CSS, SQL, Bash
- Frameworks:** Spring Boot, Hibernate, Flask, Django, NodeJS, Bulma
- Tools:** Docker, Git, Linux, Postman, BurpSuite, VirtualBox
- Other:** Task automation, shell scripting, text manipulation (grep, awk, sed, etc.), basic networking

EXPERIENCE

- Software Developer Intern** Remote
Vega IT (Full-time, three weeks) Jul 2021 - Aug 2021
 - Built a simple full stack web application for tracking employees' working hours.
 - Tech used:** Spring Boot, React, Axios, H2 Database

PROJECTS

- lazicdusan.com — Website and Blog** Jul 2022
Personal project
 - Built a personal website and blog to document my learning process. The site was built with attention to looks, performance, accessibility, responsiveness and SEO.
 - Tech used:** Jekyll, Bulma, Sass, JavaScript, GitHub Pages
- Advertising and Renting App** Jun 2022
Academic project (Internet Software Architectures)
 - Worked on a full stack web application for the Internet Software Architectures university course. Some of my tasks included configuring Spring Boot, Spring Security, setting up a basic DevOps flow (CircleCI, SonarCloud, Heroku).
 - Advertisers can publish ads for boats, resorts and fishing trips, which customers can browse and rent.
 - Tech used:** Spring Boot, React, Axios, Tailwind CSS, PostgreSQL, Docker, CircleCI, Heroku
- Social Network** Feb 2022
Academic project (Web Programming)
 - Worked on a full stack web application for the Web Programming university course. My involvement mostly consisted of back-end development, RESTful API design, setting up JWT auth, working with WebSockets, etc.
 - Some key features are a feed, posting pictures and text, comments and likes, instant messaging, etc.
 - Tech used:** Spark, Vue.js, Tailwind CSS
- Graph Visualization** Feb 2022
Academic project (Software Patterns and Components)
 - Worked on a Django application with the focus on component-based development. I was involved in creating the component model and platform using Django Apps and setuptools library, as well as building the UI.
 - The application is capable of visualizing JSON and XML files.
 - Tech used:** Django, Bulma, Jinja2, D3.js, SQLite

ACCOMPLISHMENTS

- 5th place in the final phase (for teams) of the Serbian Cybersecurity Challenge 2022 Sept 2022
- Participated in the European Cyber Security Challenge 2022 as part of the Serbian national team Sept 2022
- 2nd place in the first phase (for individuals) of the Serbian Cybersecurity Challenge 2022 Mar 2022
