EDUCATION

Software Engineering and Information Technologies Novi Sad, Serbia
Faculty of Technical Sciences *2019 — present*
*third year student, average grade of **9.13***

Natural sciences and mathematics Zrenjanin, Serbia
Zrenjanin Grammar School *2015 — 2019*

SKILLS SUMMARY

- **Languages**: Python, Java, C#, JavaScript, HTML & CSS, SQL, Bash
- **Frameworks**: Spring Boot, Hibernate, Flask, Django, NodeJS, Bulma
- **Tools**: Docker, Git, Linux, Postman, BurpSuite, Nmap, VirtualBox
- **Other**: Task automation, curl, grep, awk, ssh, ngrok, netcat, Python requests

EXPERIENCE

Software Development Intern Remote
VegaIT (Full-time, three weeks) *Jul 2020 - Aug 2020*
  ○ Built a simple full stack web application for tracking employees' working hours.
  ○ **Tech used**: Spring Boot, React, Axios, H2 Database

PROJECTS

lazicdusan.com — Website and Blog *Jul 2022*
Personal project
  ○ Built a personal website and blog to document my learning process. The site was built with attention to looks, performance, accessibility, responsiveness and SEO.
  ○ **Tech used**: Jekyll, Bulma, Sass, JavaScript, GitHub Pages

Advertising and Renting App *Jun 2022*
Academic project (Internet Software Architectures)
  ○ Worked on a full stack web application for the Internet Software Architectures university course. Some of my tasks included configuring Spring Boot, Spring Security, setting up a basic DevOps flow (CircleCI, SonarCloud, Heroku).
  ○ Advertisers can publish ads for boats, resorts and fishing trips, which customers can browse and rent.
  ○ **Tech used**: Spring Boot, React, Axios, Tailwind CSS, PostgreSQL, CircleCI, Heroku

Social Network *Feb 2022*
Academic project (Web Programming)
  ○ Worked on a full stack web application for the Web Programming university course. My involvement mostly consisted of back-end development, RESTful API design, using JWT, WebSockets, etc.
  ○ Some key features are a feed, posting pictures and text, comments and likes, instant messaging, etc.
  ○ **Tech used**: Spark (Java framework), Vue.js, Tailwind CSS

Graph Visualization *Feb 2022*
Academic project (Software Patterns and Components)
  ○ Worked on a Django application with the focus on component-based development. I was involved in creating the component model and platform using Django Apps and setuptools library, as well as building the UI and graphs.
  ○ The application is capable of visualizing JSON and XML files.
  ○ **Tech used**: Django, Bulma, Jinja2, D3.js, SQLite

ACCOMPLISHMENTS

- Runner-up in the first phase of the Serbian Cybersecurity Challenge 2022 — March, 2022
